γ = 0.0001, RV = 4.5
crude Monte Carlo
classical IS (SMIS), no pilot
QAE, crude oracle
QAE, IS oracle (idealised)
simulator or oracle calls
relative precision ε
γ = 1e − 06, RV = 5.8
simulator or oracle calls
relative precision ε
Toffoli time at which QAE ties classical IS
1 μs (reference)
vs measured numpy draw (1.2 × 10⁻⁵ s)
vs assumed compiled draw (10⁻⁷ s)
time per Toffoli for parity (s)
relative precision ε
